

Open to healthy dogs of all ages ages 9 weeks and older.

Generally dogs must be neutered if they are starting daycare at age 12 months or older.

First visit is FREE

Dogs are assessed after a first full day with respect to their comfort level with free play and overall fit with the daycare pack.

After your dog's first visit you'll get an access code to make reservations online.

**If your dog has separation anxiety consider scheduling a pre-first visit meet and greet.**

**PLEASE REMAIN IN YOUR CAR AT PICKUP and DROP-OFF**

Drop-offs between 06:30am and 09:30am

Pick-ups between 03:00pm - 06:00pm

\$5 late fee applies at 06:01pm

\$20 late fee applies at 06:20pm

You can arrange alternate times by requesting in advance.

Dogs must arrive with a properly fit martingale collar and plain leash with no attachments

(see next page for more info about the collar)

**YOU DO NOT NEED THE COLLAR FOR YOUR DOGS FIRST VISIT**

Otherwise Dogs **MUST** arrive on a properly fitted martingale collar like the one below with chain and preferable with a quick release clip

**Dogs are permitted off leash at daycare only once they are calm and collected to maximize safety in the off-leash environments.**

These collars when fit properly eliminate the risk of injury or death resulting from a dog slipping out of its harness or collar and self releases because of the chain.

We sell a great quality collar for \$25.

Collars may be removed from dogs based on play style and their overall behaviour at daycare. (Like the dogs that love to play with a lot of neck nibbles :)

Food in group environments even when the dogs are separated with crates can quickly create a volatile environment and promote food aggression. With the exception of puppies 5 months of age or younger no foodie given.

Avoid bringing your dog to daycare with a full stomach to reduce the risk of stomach bloat especially if their diet is kibble based.

You must notify us if your dog is given any vaccine other than the "core vaccines" distemper, parvo and rabies.

Only the core vaccines are required.

WE DO NOT REQUIRE THE "KENNEL COUGH" vaccine

There are many dozen variations virus/bacteria that can cause the symptoms commonly referred to as "kennel cough"

You are responsible for alerting us to any health concerns regarding your dog and certifying your dog is in good health.

Total Dog Care Daycare is about providing dogs of all ages and breeds with the environment to explore, develop canine socialization in an unleashed fenced-in setting.

Dogs are not segregated by size or breed and only segregated based on play styles and personalities.

Single Visit \$40  
10 pack good for 5 weeks \$260  
10 pack good for 10 weeks \$300

(Monthly contracts)  
3 visits per week \$24.48/visit  
4-5 visits per week \$22.60/visit

Early poop Fee (if you dog poops indoors within 30 minutes of arrival)  
\$10

Dogs are incredibly fast animals and interact primarily through physical interactions and body language. It is inevitable that cuts and scratches may occur and while every effort is made to minimize risks related to dog park "quarrels" no dog park is 100% without risk.

If your dog is ever involved in an altercation that turns physical you will be notified immediately of the details (once any first aid procedures are performed if applicable)

If your dog requires, based on our judgment (in a situation when you cannot be reached) veterinary attention for whatever reason you are responsible for reimbursement of any and all costs related to the care we seek out on your behalf. If there is a cap of how much you want to authorize to be spent in the event you cannot be reached in an emergency situation note below
